Hi there,

Hope everyone is doing well and continuing with their preps. I know the price of things is going through the roof but now, more than ever, is the time to stay vigilant with your prepping. We have no idea what this winter holds for us. These tasks should take no longer than an hour to complete and will bring you one step closer to your household preparedness.

This week's tasks:

- 1) Add 5 more cans of food to your storage. It can be veg, meat, fruit, beans, whatever you eat.
- 2) check your furnace or HVAC system and replace filters. If you have a wood stove check the chimney and make sure it is clean of creosote for this winter's use.

Quick tasks, easy to do, important for your preparedness.

Prep on sisters,

Barb 🌻

"Be kind to everyone for we are all fighting a hard battle." -Plato
