Hi there,

I feel like I lost a week, it's prep time already. We are so busy here making sure we are ready for winter we lose track of time. Hope your busy too as this winter will see more food shortages and higher heating bills. Please get yourself ready.

Okay your quick and easy task for this weekend:

- 1) Gather all the flashlights in the house and make sure they have working batteries.
- 2) Get another manual can opener and keep it exclusively with your canned preps.

That was easy but important. You don't want to have to think about these things when you are in an emergency situation!

Have a great weekend and prep on,

Barb
